CAREER OBJECTIVE

I am an enthusiastic and dedicated Computer Science graduate from Model Institute of Science and Technology, passionate about using technology to solve real-world problems. I approach every task with determination, hard work, and honesty. I have a strong interest and practical experience in Backend Development, along with effective knowledge and experience in Front-End Development. I am also proficient in using AI-powered development tools to accelerate my workflow, solve problems efficiently, and deliver high-quality solutions within shorter timeframes. I aim to leverage my technical skills and experience to build scalable, reliable, and user-focused solutions while making meaningful contributions to impactful projects. I seek to work with a dynamic development team, contribute to challenging projects, and continuously grow as a skilled software developer.

EDUCATION

Diploma in Computer Engineering

Institute Name Model Institute of Science and Technology, Gazipur, Bangladesh

Subject Computer Engineering

Passing Year 2021-2025

Secondary School Certificate (SSC)

Institute Name Bhabanipur High School, Gazipur.

Subject Science

Passing Year 2021

TECHNICAL SKILLS

Frontend : HTML, CSS, Tailwind CSS, JavaScript(ES6+), React.js, TypeScript, Next.js

Backend : Node.js, Express.js, Prisma, Socket.IO, Docker

Database & Cloud : MongoDB, Postgresql, Firebase, AWS S3, VPS

Tools : GitHub, GitHub Actions, Figma, Chrome DevTools, Netlify, Vercel, Surge, CI/CD

PROJECT

1. ChugChain–Social Video & Mini-Game Mobile Platform

[Live link](#) | [GitHub](#)

ChugChain is a reels-style social mobile platform combining short videos, mini-games, friendships, and subscriptions.

- Reels-style short-video platform enabling users to create, discover, react, report, and share content.
- Interactive mini-games including Roll Dice, Spin the Wheel, and Pick a Cup with gameplay cooldowns.
- Friend-based social system requests, tagging, notifications, reports, and personalized insights.
- Subscription-based premium features with secure payments, video limits, and advanced gameplay.

Technologies: Node.js, Express.js, TypeScript, Prisma, PostgreSQL, AWS S3, Firebase

2. TravelGuide Hub—Community-Based Travel Guide Platform [Live link](#) | [GitHub Client](#) | [GitHub Server](#)

TravelGuide Hub is a modern web platform connecting travelers through community-driven guides and experiences.

- AI-powered travel assistant chatbot providing personalized travel recommendations and insights.
- Community-driven engagement system with upvote/downvote voting and nested comments.
- Paid travel guides with secure Stripe integration and payment system enabling smooth monetization process.
-

Technologies: Next.js, Tailwind CSS, Express.js, Prisma, PostgreSQL

3. StudyNest - Online Learning Platform [Live link](#) | [GitHub Client](#) | [GitHub Server](#)

A platform where students join courses and teachers create and share their knowledge.

- Teachers can add, update, delete classes, while admin approval controls visibility on platform.
- Students can track enrolled courses, submit assignments, and provide feedback on courses effectively.
- Students can securely pay for classes, and enrolled classes are saved after successful payment.

Technologies: React.js, Node.js, Express.js, MongoDB, Firebase, Tailwind CSS

TRAININGS & CERTIFICATIONS :

Course	: Web Development Level 1
From	: Programming Hero
Status	: Completed
Course	: Web Development Level 2
From	: Programming Hero
Status	: Completed

WORK EXPERIENCE

Backend Developer

SM Technology | May 2026 - September 2026

- Gained hands-on experience in real-world projects, client communication, project requirements, team collaboration, end-to-end project development and production deployment, while developing practical Microservices experience and strengthening professional communication and problem-solving skills..

MERN Stack Developer

Zentrix Technology Limited | September 2025 - February 2026

- I gained hands-on experience as a frontend developer by building real-world projects and applying my technical skills effectively. Working with a development team, I strengthened my collaboration skills and learned to quickly adapt to new technologies.

ACHIEVEMENTS :

- Successfully completed Web Development Level 1 from Programming Hero, a reputed online learning platform. Earned the Black Belt Certificate for completing all projects, assignments, and challenges with excellence.
- Actively participated in real-world MERN Stack projects during internship and training, gaining hands-on experience in full-stack development and collaborative teamwork.
- Successfully contributed to multiple client projects through Fiverr, earning 5-star ratings from clients and positive feedback for delivering quality solutions and meeting project requirements.

CO-CURRICULAR ACTIVITIES:

- I actively participated in programming projects at my institute, where I engaged in diverse coding activities and workshops to enhance my technical skills and collaborative learning experience.

LANGUAGE PROFICIENCY :

Bengali : Native

English : Working Proficiency
